## Dionysian Futurism and Maenad Feminism Manifesto

### **Core Beliefs of Dionysian Futurism**

- Determined in creating a government that, on a fundamental level, holds the value and maintenance of its biosphere as an absolute.

- Prioritize Rewilding

- Prioritize research and implementation of Thorium Nuclear Power.

- Reject the idea that Man is a Fallen Angel that stems from Rousseauian ideas that Man is innocent and it is society that corrupts him.

- We reject the Judeo-Christian ideals that births the conservative ideas that the world and society is in decay and must keep its institutions and foundations unchanged until God returns to bring the Apocalypse.

- We reject the Marxist ideals that births the progressivism ideas that The State shall engineer a utopia of purely abstract human beings where biological sins such as gender, ethnic, and caste differences are eliminated

- Embrace that Man is a Rising Beast and acknowledge Man as an Animal that is still evolving. We embrace that we shall copy the conditions that allowed humanity to rise above the animals in the first place.

- Embrace Postmodernists such as Albert Camus and Jean-Paul Sartre

- Reject Poststructuralists such as Jacques Derrida, Jacques Lacan, and Michel Foucault

- Reject aspects of Communism

- Embrace aspects of Socialism

- We believe strongly in Universal Healthcare

- We believe strongly in Free Education

- Embrace Universal Basic Income

- We do not classify Universal Basic Income as either Communism or Socialism.

Communism is, by definition, a revolutionary movement to create a classless, moneyless, and stateless social order built upon shared ownership of production. With Socialism, the core principle is the nationalization of the means of production – i.e. the government seizes Amazon and Google. We see UBI working seamlessly with Capitalism.

- Pardon all prisoners imprisoned for nonviolent, low-level drug offense.

- We criticize the Prison Industrial Complex and its close associations with the US Judicial Branch and the private sectors which lead to the creation and rise of for-profit private prisons.

-Bring attention and awareness to COINTELPRO

-We assert the War on Drugs to be an overt war on the working class.

“The Nixon campaign in 1968, and the Nixon White House after that, had two enemies: the antiwar left and black people. You understand what I’m saying? We knew we couldn’t make it illegal to be either against the war or black, but by getting the public to associate the hippies with marijuana and blacks with heroin, and then criminalizing both heavily, we could disrupt those communities. We could arrest their leaders, raid their homes, break up their meetings, and vilify them night after night on the evening news. Did we know we were lying about the drugs? Of course we did.”

-John Ehrlichman, Counsel and Assistant to the President for Domestic Affairs under President Richard Nixon

-We assert the War on Terror to be an orchestrated campaign to destroy opponents of the U.S. dollar. With the 9/11 September attacks, resulted the pass of the **USA PATRIOT Act** which facilitated the creation of an unprecedented surveillance state in the U.S.

(**USA PATRIOT Act** is an acronym--

**Uniting** and

**Strengthening**

**America** by

**Providing**

**Appropriate**

**Tools**

**Required** to

**Intercept** and

**Obstruct**

**Terrorism** Act)

-Unlike other Futurists movements of the past who seek to destroy capitalism. We seek to use it as a foundation to move forward, transform, and evolve into something greater than the previous attempts at a civilization.

We also value that different people have different needs and each of these societies can try diverse laws and ideas. Bad ideas and societies will discard themselves over time and that good ideas will stand the tests of time.

- Complete love of the human experience of all its pleasures and sufferings.
- Health and exercise as a priority and be seen as a celebration of the human body.
- We reject a nihilist outlook on life. We choose to embrace the struggle of the human experience to continue our survival and our well-being.

- We identify evil as malevolence. We see malevolence as someone or something that causes or creates unnecessary suffering.

- We identify evil as ignorance.

- We believe faith is not enough. Knowledge is everything. Knowledge brings us closer to a Higher Power, assuming there is a Higher Power.

- The revival of the exploration of the Final Frontier

- Space Travel as a priority

- Complete Man's destiny of inheriting The Stars

- Prioritize Open Access of Information and oppose privatization of knowledge of Digital Information.

- Automation is inevitable

- Virtual Reality is inevitable

- Video Games are the closest attempt at mimesis in Art so far.

- We embrace Syncretism as an absolute

- Such as

- Syncretism of adopting Greco-Roman and Judeo-Christian values

- Syncretism of Religious/Scientific perspectives I.e. the Alchemists

- Syncretism of Postmodernism and Antiquity

- In the spirit of Syncretism. We assert all ideologies from Anarchy to Monarchy, Communism to Capitalism have something great to offer and something terrible to avoid.

- We believe that it is our responsibility as human beings to attempt in creating a new ideology that constantly transforms itself absorbing and embracing ideas of every ideology that accelerate well-being and creativity.

The generation that preceded us fought an Orwellian future of 1984 coming to reality. Our generation will be the one that will fight a dystopia that resembles Brave New World.

## Core Beliefs of Maenad Feminism

- Revival of the Spirit of the Second-Wave Feminism
  - We see Third-Wave Contemporary Feminism as a Betrayal of the original intent of Feminism.
  - We see contemporary male feminists as snake-like, weasel-like virtue signalers
- Expose the weakness of men and superiority of women in the dynamic of the Dominatrix
- We embrace thinkers such as Simone de Beauvoir and Katherine Hepburn
- We reject thinkers such as Betty Friedan and Gloria Steinem
- Champion and herald the return of the Amazon/Valkyrie Archetype
- Pro-Choice
- Pro Legalization of prostitution and all types of sex work
- Pro Trans Rights
  - We view the idea of the lack of existence of gender to be transphobic.
  - We view “nonbinary” as transphobic
  - If we assume gender does not exist, then what is the necessity of transitioning?
- We herald equal opportunity feminism which demands the removal of all barriers to women's advance in the political and professional world — but not at the price of special protections for women which are infantilizing, humiliating and anti-democratic.

“The feminist line is, strippers and topless dancers are degraded, subordinated, and enslaved; they are victims, turned into objects by the display of their anatomy. But women are far from being victims — women rule; they are in total control ... the feminist analysis of prostitution says that men are using money as power over women. I'd say, yes, that's all that men have. The money is a confession of weakness. They have to buy women's attention. It's not a sign of power; it's a sign of weakness.”

-Camille Paglia

We wish to revive the Logos Of Cybele, of Mother Nature.

The Logos and Archetype in which men have feared and been ran rugged all their lives.

We wish to bring back the Archetype of Nefertiti and Cleopatra back into essence.

## **Dionysus**

First there was Uranus, King of the Heavens. His youngest child was Cronus who rebelled against him and became the new King of the Heavens. Cronus's youngest child was Zeus who rebelled against him and became the new King of the Heavens.

It is in this pattern, Zeus's youngest child, Dionysus shall rise above him and become the new King of the Heavens.

It is in this that we see Dionysus, the Mad God reflects the chaos of climate change. We see that in it is in this pattern that Dionysus, who unlike his brother Apollo who takes after the Father Sky archetype, follows Mother Earth.

Mankind has been poisoning and exploiting Mother Earth and the Earth is fighting back and she will win if we choose to do nothing about this.

We must follow the Hero's Journey: We must make amends with our Mother lest she swallows us back into her and we must venture into the unknown (that which is outer space) and fulfill our destiny of inheriting the stars.
